

## Aftermath: Travels in a Post-War World (The Farley Mowat Series)

In 1953, Farley Mowat, a Canadian infantryman during World War II, returned to Europe, a place he knew only during the ravages of wartime. Together with his wife, he returns to England, France, and Italy to reexamine the past and find hope in the future. This is a unique and compelling look at a world that has undergone dramatic changes in the last fifty years, described in vintage Farley Mowat style.
