Most people are now extra cautious with their salt intake because of its negative effect of increasing the blood pressure that can eventually lead to various heart-related diseases. We are also wary of saturated fats as it increases the bad cholesterol level, but what we are not aware of is the hidden culprit for a number of health problems that is silently lurking in our cupboards and hidden in most foodsugar. Millions of individuals are addicted to sugar and are seemingly unaware of its adverse effect aside from weight gain. Sugar can: suppress the immune system cause premature ageing cause tooth decay increase fluid retention known enemy for regular and good bowel movement cause depression or mood swings cause/contribute to arthritis, Crohns diseases, asthma, gallstones, appendicitis, heart disease, multiple sclerosis, diabetes and more cause concentration difficulties, crankiness and hyperactivity in children The reality is that we have developed a habit of overconsumption of this highly-addictive substance. The average consumption of sugar in the US is more than double of the suggested intake by the World Health Organization (WHO); and this is a very alarming figure. If you want to start leading a healthier lifestyle, free yourself from sugar addiction and its ill benefits, you have clear your system of this deadly substance. With Sugar Detox: Easy Guide to Cure Sugar Addictions, Stop Sugar Cravings and Lose Weight with Sugar Detox, I will arm you with essential

information needed to fight the sugar addiction epidemic. We will put an end to your sugar cravings and most importantly, help you lose weight through a 21-day sugar detox journey.
