

Wheels and Transport (Design & Make)

Through the use of step-by-step photographs, this book shows children how various forms of land transport can be designed and made from cheap and easily obtainable materials. The book contains comprehensive teacher notes which explain the technology principles covered in each project. The book relates to Design and Technology Key Stage 2 and to the 5-14 Scottish guidelines for Technology. Pictures from the real world together with now try this boxes give suggestions for further activities.
