

HEAL: The Harvard Electronic Anesthesia Library (CD-ROM for Windows & Macintosh)

Compiled by the experts at the four teaching hospitals of the prestigious Harvard Medical School, the Harvard Electronic Anesthesia Library is a comprehensive, fully interactive electronic textbook that encompasses the entire field of anesthesiology. This groundbreaking CD-ROM uses an interactive and hypermedia approach to cover anesthesia education through state-of-the-art technology. The Harvard Electronic Anesthesia Library delivers... / The most up-to-date information available. / Over 100 modules, all hyperlinked, including in-depth coverage of anesthetic pharmacology; ambulatory anesthesia; regional anesthesia; pain; obstetric anesthesia; cardiac, neuro, and vascular anesthesia; and more. / Dozens of video clips with narration. / Hundreds of images that appear with just the click of your computers mouse. / A powerful search engine that allows you to search for information any way you want--by contributor, section, chapter, key word, topic, or phrase. / Multiple-choice questions at the end of every module that allow you to review that topic, or build a test to review the entire field. Perfect for exam preparation or self review. MEDLINE(R) references from more than 30 journals, and contributions from experts across all subspecialties make this an indispensable resource for everyone interested in broadening his or her understanding and achieving greater professional success. Windows / Macintosh Compatible
