

The Five-Minute Veterinary Consult Canine and Feline Specialty Handbook: Musculoskeletal Disorders

Designed for quick reference in the clinic examination room, this compact, easy-to-use handbook provides practical guidance on diagnosis and treatment of all musculoskeletal problems seen in dogs and cats. Topic entries are written by the foremost experts on small animal musculoskeletal problems and follow The 5-Minute Consult format that is so popular among busy practitioners. Topics are organized alphabetically so that readers can quickly find the information they need. This timely new resource covers a wide range of canine and feline musculoskeletal conditions, including elbow dysplasia, intervertebral disc disease, and arthritis. A full-color insert of images and illustrations depicting various disorders is also included.
