

Thats What Wings Are For

There are three things that all respectable dragons need: strong wings for flying, strong lungs for breathing fire, and strong, shiny scales to guard them from the dragon slayers. But Bluey the Dragon has none of these things. Even so, Bluey has other abilities, some of them truly wonderful if only he can work out what they are! *That's What Wings Are For* is a touching fable about discovering that thing that you do the best, and finding a way to do it.
