A cheesecake is by far a very delicious dessert. Why cheesecake? because baking a cake would require too much time while making a cheesecake is quite easy. True, there are some recipes that costs you a lot of time (1h and a half+) but most of the cheesecakes are so easy to make they are done in minutes. If you are a dairy fan, then dont hesitate and try right now a cheesecake recipes. You dont have to buy my book even if I am glad if you do, but go on Google, search a cheesecake recipe, pick one that you like and make something awesome. Trust me, you will not regret. For those of you who dont know what a cheesecake is, or they have a vague idea, I will briefly explain it here: a cheesecake is a cake(usually no-bake, but this is not a general rule) which has a cream cheese filling. They are actually very easy to make and does not require a lot of ingredients (although some recipes does). Here is an example of a basic cheesecake: Biscuits + melted butter for crust. Mash the biscuits and combine with the butter. Press the mixture in your cake baking tray. Refrigerate for 1 hour. Cream cheese+ white melted chocolate. Whisk both ingredients very well. Pour over the crust. Top with frozen blueberries. As you can see it is really easy to make one.
