Excerpt from General View of the Agriculture of the County of Derby: With Observations on the Means Of It is requested, that this Paper may be returned to the Board of Agriculture, at its office in London, with any additional remarks and observations which may occur on the perusal, written on the margin, as soon as may be convenient. It is hardly necessary to add, that the Board does not consider itself responsible, for any fact or observation contained in this Report, which at present is printed and circulated, for the purpose merely of procuring farther information respecting the husbandry of this district, and of enabling every one, to contribute his mite, to the improvement of the country. The Board has adopted the same plan, in regard to all the other counties in the united kingdom; and will be happy to give every assistance in its power, to any person who may be desirous of improving his breed of cattle, sheep, &c. or of trying any useful experiment in husbandry.
