How To Care For A Horse Using Horse Insurance And A Reputable Horse Veterinarian : From The Pink Book Series By Debbie Nicholson. ne of my good neighbours in Paremata had horses and I was surprised just how much he had to spend in order to take good care of them. I think that is what prompted me in the first place to collect stuff on the care of horses, not dreaming (or maybe I did subconsciously) that I would one day write a few books on these special animals. I found Horse Insurance to be very fascinating who would have thought to have ones horse insured? And it makes a whole lot of sense now that I think more about it. When I was overseas on an AFS Scholarship my American Mom worked for a reputable Veterinarian in our town of Los Altos in California who was interested in their Moms work at the age of 16??? Yet today as I write this preface her face comes to my mind quite plainly as well as the Animal Veterinary Services where she used to work. Incredible recall huh?? I think I mentioned in one of my earlier books that we should love and treat our pets as we would expect to be treated ourselves. Therefore protection from virus and diseases are mandatory, especially if your horse is showing symptoms of a flu virus. Horses dont need much to make them sick. Just not grooming them properly will cause a skin rash hellooooo - dont we as people have a daily scrub up to make our skins glow?Kind regardsDebbie Nicholson
