

Furnishing Forward: A Practical Guide to Furnishing for a Lifetime

A fun and informative manual designed to assist young people who want to decorate with real furniture in their new homes. The author sets out to help to guide the reader in finding a personal style and establishing a realistic budget, whilst at the same time working with colour. Bridges shares both her professional and personal anecdotes to help first-time home- and flat-owners make the transition in purchasing furniture that will endure for years. With the help of professional designers, Bridges offers advice on how to shop for quality pieces and create the look you want.
