

Homesteading Essentials (2): Introduction To Homesteading & Alternative Energy Options - Two Book Bundle

Two of Norman J Stone's Best Selling Books Modern Homesteading & Renewable energy are combined in this fantastic 2-book bundle, offering both books for a substantial reduction on their individual prices. If you are a Homesteader interested in all the aspects of self-sufficiency, or just want to explore the possibilities regarding alternative energy sources for your home or homestead then this is the book for you! The 5 books in one Homesteading bundle, includes introductions on raising chickens, raised bed gardening, vermin control, canning & preservation and growing organic vegetables. The Renewable energy guide includes alternative energy from sources such as magnetic energy, micro hydro-electric schemes, Biomass energy, geothermal energy, solar energy, nuclear energy, wind turbines, and an overview of what is meant by carbon footprint. This second book in the Homesteading Essentials series, offers a great opportunity to get both these books in one low-priced bundle.
