

How to get up from a fall

On average, 3 in 10 people aged 70 years or older fall each year. Half of them have problems getting up without help after a fall. Injuries from falls are more common than strokes, and the consequences can be just as severe. Getting up too quickly from a fall, or getting up the wrong way could make an injury worse. In this eBook, Dr. Dorothy Baker explains the best techniques for getting up safely after a fall.
