

The Alchemists Academy Book 2: Elemental Explosions

A new student has entered The Alchemists Academy, and he brings with him an explosive power that threatens the Academy and the legend of Merlin. Wirt thought he was the only bad boy at the Academy, but he was wrong. Not only is Roland Black worse than Wirt, but a new teacher had replaced one of their beloved teachers, and she has more planned for Wirt and his friends than just lesson plans. Alana, his crush has grown prettier, and now he is rivals for her attention with not only his best friend Spencer, but newcomer Roland, as well. On top of that, it is their second year, and the year where all the students must pass a test to move on to the Elite Class at the Academy. The Elite Class is the only class in the third year at the Academy, and the students who fail will be sent home, others will face something even deadlier.
