

Warriors: On Living with Courage, Discipline, And Honor

In recent years warrior has become a buzzword. Most often its used properly, though sometimes its use is a stretch of the definition. To seek out the true meaning of warrior and warriorhood, Loren W. Christensen - retired cop, war veteran, high-ranking martial artist and prolific author - went to the source, to those who live it. The writers who contributed to this work are some of the finest warrior authors, warrior trainers and warrior scholars today. They have been there and done that. Many have fought on the edge of deaths yawning orifice, survived, and now teach others to do the same. Some are still in the trenches. Thirty-seven experts tell what its like to kill, to sacrifice, to train, to fear, and do what needs to be done. Because that is what a warrior does.
