

The End of Being Known: A Memoir (Living Out: Gay and Lesbian Autobiographies)

Written in poet Michael Klein's uniquely passionate, unapologetic but humble voice, *The End of Being Known* explores the lines that define, yet also blur, the boundaries of sex, friendship, and compatibility. This collection of autobiographical essays probes the manifestations of sexual desire in its mystical variety: experiencing incest, falling in love, being a twin, and inhabiting the world of anonymous sexin practice, and, in an essay about the Body Electric movement, as something recuperative and renewing. Each essay unfurls in a hybrid of poetry, narrative, and fragmentary literary devices. Here is an uncompromising gaze upon the quandaries of those whose sexual, emotional, and relational worlds collide, yielding no answer to the riddle of desire, yet finding meaning by piecing together personal examples of universal themes such as learning, through trial and error, about love and life.
