

Manual of Rabbit Medicine and Surgery (BSAVA British Small Animal Veterinary Association)

This much needed manual has been specifically written for veterinary surgeons dealing with pet and house rabbits. As more and more people keep rabbits as pets, and bring them into their homes, it is essential that veterinarians can advise effectively about management, behaviour and the medical and surgical conditions these rabbits are likely to suffer. Chapters on disease are arranged systemically, and follow detailed information on clinical chemistry and general biology and husbandry. Specific issues relating to therapeutics and anaesthesia are included, and all the information is presented in a clear way with extensive use of tables, lists and illustrations, many in colour. This book will be an essential addition to every small animal practice library and is likely to spend much of its time in the consulting room as a regular reference source. BSAVA, BVNA and FECAVA members can claim their member discount by ordering direct from: British Small Animal Veterinary Association Woodrow House, 1 Telford Way, Waterwells Business Park, Quedgeley, Gloucester, GL2 4AB, Tel: 01452 726709, Fax: 01452 726701, E-mail: publications@bsava.com
