

Marching to Appomattox: The Footrace That Ended the Civil War

A rigorously researched historical overview of the last battle of the Civil War. We always hear about how wars start, but how they end can be just as fascinating. That is certainly the case with America's Civil War. After the fall of Richmond, Robert E. Lee and his Confederate troops were racing toward North Carolina for supplies and reinforcements. Ulysses S. Grant's Union troops were determined to stop them. Both sides were certain they would prevail, yet after fighting with all his heart and soul, Lee surrendered at Appomattox Court House. But why? Find out how geography, luck, perseverance, and compassionate diplomacy by Lee, Grant, and Abraham Lincoln combined to change the course of our nation's history. Full-color illustrations. Includes bibliography! In this dramatic day-by-day account, Stark chronicles the tense six-day chase in April 1865 that ended with the Army of Northern Virginia's failure to break out of the encircling Union forces.... Absorbing. Booklist A clear narrative that is detailed enough to make this chapter in American history come alive. Kirkus Reviews A wonderfully illustrated look at the closing days of the Civil War. Quotes are provided throughout the book from soldiers, as well as generals, giving this a strong voice. Interesting facts that are often left out are provided, making this a truly unique read.
