

Neuroscience Nursing: A Spectrum of Care

NEUROSCIENCE NURSING provides current and comprehensive information about adult neuroscience patient management for practicing neuroscience, medical-surgical, critical care, and emergency nurses. Encompassing a neurosurgical, holistic view, this text discusses psychosocial aspects associated with neurologic conditions and disorders. The nursing process appears throughout the text and emphasizes high-risk nursing diagnoses, pathways for recovery, standards of care, and patient and family teaching. Separate sections discuss legal issues and the future of neuroscience nursing.
