

Pictorial History of Iran: Ancient Persia

Beloved Reader, Pictorial History of IRAN, Ancient Persia is about one of the oldest nations and civilizations in the world. I hope the information provided in this book will give you better insight into Persian culture and history, which has survived through the centuries and has withstood the test of time. As a focal point of the crossroad between East and West, the Persian Empire had a tremendous relevance in the development of human culture. Persians dedicated their lives to the cultivation of ideas, cultural exchange, and human development. Like Iran's night sky, the ancient history of Iran is full of shining stars. Large cities in Elam, Hamadan, Pasargadae, and Persepolis were established. The union of Medes and Persians laid the foundation for the Achaemenian Empire, which organized, administered, and governed with justice and order the great Persian nation from the Jaxartes river (Sir Darya) to Nile, Asia Minor to Persian Gulf, and east as far as the Hindu river. This great nation enjoyed prosperity, vast communication systems, practice of humanitarian equality, and a well-balanced system of government. Cyrus the Great issued the first declaration of Human Rights, after capturing the Babylonian Empire and freeing the Jews held in captivity there and allowing them to return to Jerusalem. The Persian Empire reached one of its pinnacles during the Mesopotamia era. With the profound influence of Zoroastrian convictions, with pure thought, good deeds and noble words, the Persian Empire flourished throughout Asia Minor, Lydia, all the way to Greece. Up to this point in history, there were no significant scientific and cultural achievements in Greece. Many inscriptions found in Persepolis prove that the Persian Empire was the key in cultivation and spread of civilization, as we know it today. The Persian civilization and the first declaration of human rights by Cyrus the

Great has had a lasting impression on all the nations. This humanitarian concern has eventually become a universal principle. I hope human rights and the promotion of human development will prevail in the 21st century.
