

Raising the Shades

Casey needs a way out of the dark Ever since his mother fled the scene, thirteen-year-old Casey has taken over her role: cooking, cleaning, and looking after his father when hes sick. In denial about his fathers secret drinking and drug problem, Casey is increasingly isolated, angry, and overwhelmed. But Dads addiction isnt as secret as Casey thinks, as he learns when his aunt announces that an intervention is in the works. Casey is conflicted. He wants to help save his father, the person he loves most in the world, but he doesnt want to betray him. In this powerful novel, Doug Wilhelm shows how denial can cut both ways, as Casey stops overriding his own feelings and discovers his own way toward confronting his father directly, face-to-face, for the first time.
