

## Shadowrun Seattle 2072 (Shadowrun (Catalyst))

CAT26102 Seattle 2072 - Shadowrun RPG by Catalyst Game Labs It is a screwed up city. Isolated from the rest of the UCAS, it is haven for criminals smugglers, syndicates, gangers. Legal criminals, too megacorporations, governments, politicians. As beautiful as she is dysfunctional, Seattle is urban sprawl amid rolling hills and forests nestled up to man-made wonders next door to natural and man-made disasters. Whether you are a native or not, Seattle will draw you in like no other. You can run for a lifetime and never leave Seattle, but some say you cannot run for a lifetime without entering. This 200 page book is the ultimate look at Seattle, presenting the City on the Sound in full-color, like you have never seen her before.
