

Seed-Stage Venture Investing: The Ins and Outs for Entrepreneurs, Start-Ups, and Investors on Successfully Starting a New Business

Creating, funding and managing technology-based companies, a process knowingly referred to by venture capitalists and entrepreneurs as doing start-ups, is a high-wire act unlike anything else in business. In Seed-Stage Venture Investing, start-up specialist William L. Robbins guides company founders, investors, service providers, and graduate students in business, science, and engineering through the venture formation, funding, and development process with refreshing candor and humor. With a start-up insiders sensibility, Robbins explains how to scout for promising technology, how to identify scientists and engineers who have the right stuff, and how to navigate the ins and outs of Start-Up Land successfully, including helpful advice about technology transfer, intellectual property, fund-raising, team-building, working with service providers, and corporate partnering. With a combination of hands-on knowledge, true-to-life anecdotes, factual examples, and irrepressible wit, Seed-Sage Venture Investing tells it like it is, demystifying the start-up process for first-timers, and providing more experienced professionals with fresh insights. Whatever your specific field of scientific, technical, or business interest, Seed-Stage Venture Investing is an informative and highly readable guide to the world of start-ups.
