

## Seven Natural Wonders of Central and South America (Seven Wonders)

Without any human influence, nature has created extraordinary wonders - from majestic mountains and bubbling volcanoes to amazing plants and animals. These wonders are found across all the continents and oceans of this planet. In a tour of the seven greatest wonders of Central and South America, we will encounter jets of hot water and steam that shoot up hundreds of feet from a lake that is located in the crater of a volcano. In South America, we will see the tallest waterfall in the world as it tumbles off the edge of an ancient flat-topped mountain. And we will visit the towering peaks of the world's longest mountain chain that runs down the length of this continent. What other natural wonders do Central and South America hold? To find out, we will explore a misty and magical cloud forest, a bone-dry desert, and a great river in fascinating detail.
