

Coconut Water (The Case Files of Icarus Investigations Book 4)

The team at Icarus Investigations uncover a plot that could lead to war when mysterious shipments are discovered coming from a tropical island. Mysterious sightings of strange vessels have been reported in the waters of the Caribbean Sea. They're connected to smuggling activity by the drug cartels and their new partnership with a sophisticated organized crime syndicate. Galveston and Murphy, as part of a federal task force dealing with this syndicate, are called in to investigate. They uncover an intricate plot that could ultimately push the United States into an all out drug war. The Icarus team uses their trademark, unorthodox detective skills to hunt for the mastermind behind the operation, but what they discover is a shocking revelation about the crime syndicates real plans. This is another exciting installment from the Case Files of Icarus Investigations filled with the same amount of fun. Coconut Water is the 2nd book in the Red Hand mini-series which also includes Snow Cone and Stolen Dough. All the books can be read separately but are more fun if read in order. Continue the action and adventure in the other Case Files: Flapjack (Case File #1) Peeking Duck (Case File #2) Snow Cone (Case File #3) Coconut Water (Case File #4) Stolen Dough (Case File #5) Bitter Pill (Case File #6) Microwave (Case File #7) Coming Soon
