

Hygiene: A Salon Handbook

This guide to all aspects of hygiene and safety has been written specifically for hairdressers in training and covers salon hygiene, scalp diseases and disorders, safety and first aid. It satisfies the examination requirements of the Royal Institute of Public Health and Hygiene City and Guilds Basic and Advanced Hairdressing and the BTEC examination being planned for the future. A full revision section has been included in the questions. Practising hairdressers will also find it a useful reference book for the salon, particularly when they encounter various scalp conditions. The book also shows how various types of accidents can occur, how they can be prevented and what action should be taken to minimise their effects. Advice on diet and women's problems have been included to make the book a complete reference guide for the salon.
