

## Trading Basics

Have You Ever Wanted To Learn How To Trade? Over 40 years ago I placed my first stock trade and my quest to learn how to trade in stocks began. Over the years I lost hundreds of thousands of dollars (I wont say the exact amount because looking back I am so mad at myself for being so stupid) as I blindly went from one investing/trading method to another.

Frankly, I didnt have a clue about trading and finally got sick and tired of losing money so I started on a quest to learn how to be learn to trade stocks successfully. It wasnt easy and I have spent over \$50,000 on trading courses and software programs over the years but I stuck with it and now make a nice little income from my trading business. Trading Basics is the stuff I wish I would have known years ago and is comprised of the exact same advice I give to my family and friends that express an interest in learning how to trade. It is by no means the ultimate how to trade stocks book but I think you will agree that there is a lot of wisdom packed into it that can save you thousands as you learn how to be a trader. My Book Trading Basics For Free?

In fact, I am going to make the purchase of my book a no-brainer because I am going to effectively give it to you FREE by giving you one of the juicy tips I talk about in my book!!! You see, when most people start trading stocks they open a brokerage account at one of the discount brokers they see on TV and pay \$7.95 - \$9.95 each time they place a trade. Hey, I love that little kid in the commercials too but not enough to give him my hard-earned money. No, I would rather pay \$1.00 or \$2.00 per trade wouldnt you? Note: This is for up to 200 shares. I recently bought 503 shares @ 21.31 and only paid \$2.51 in commissions so you would have to trade thousands of shares to hit the rates charged by the Discount Brokers you see on TV. How do I do this? Easy, I use Interactive Brokers for my trading business. Its a deep discount

brokerage that most people don't know about. Do a search for Discount Brokers and you probably won't see it listed in the search results. I never heard of them either until I started hanging around some professional traders and they all said they used IB so I checked them out and opened an account and have never had a problem with them. So do the math, \$7.95 - \$1.00 = a savings of \$6.95 on just ONE trade. Hey, that's better than free isn't it? I hope you enjoy Trading Basics and that it will save you time and money on your trading journey.
