

The Drone War: A Cassandra Virus Novel

Its the future. Jordan O'Brien may be a genius when it comes to computers, but with spies after his sister Cassie's research in UAVs and artificial intelligence, he needs all the help he can get to keep her safe and save BWB Aerospace's top secret drone project. Luckily for Jordan, he has Helen the frog expert and Cassandra, the sentient supercomputer programme he created, on his side. The problem is, Helen thinks kidnapping and interrogating a government agent is a perfectly logical solution to their problems, while Cassandra has developed a bad case of ethics. When old enemies snatch Jordan, though, it's up to Cassandra to save the day, even if that means hijacking BWB's multi-million dollar UAV system. It's just borrowing, really...
