

A Nurses World Volume II: Volume II

What an inspiring story this is so much love and so much pain. This is such a touching story.-Reviewers comments. This book is like combining Chicken Soup with ER. Rachel tells first hand experience stories from her years as a home health nurse with a distinct style all her own. Some may make you question her sanity, others will make you wonder about humanity. All give the reader a better understanding of the unique circumstances a home health nurse encounters in both rural and metropolitan settings. Put yourself in the place of the patient, the family, the doctor or Rachel as you read these stories and let them come to life for you.
