

The Starbirth Assignment Part Two: Transmutes

An illegal mind-bending drug, inter-dimensional teleporters, levitation-flying, paranormal awareness and covert operations with British Special Forces this is a normal day at the office for Lock Harford. His suit is camouflage and his briefcase is a Diemaco Special Forces Weapon. Lock is one of only two teleporters in the world until a new brain-altering drug, Starbirth, emerges from South America. Starbirth creates an explosion of insane teleporter criminals who threaten pandemic infiltration and the stability of every country around the globe.

In this Part Two of the first book in the Starbirth series, Jackie Johnson develops a brutal mix of suspense, humanity, command and action with a subtle vein of humour that keeps the reader rooting for Harford's team. These books are crafted to stay with the reader long after the story is finished, a rare ability in these days of bubble gum fiction, and Starbirth sits confidently alongside the best Sci-fi thrillers. Her ability to merge Sci-fi and Special Forces intrigue are second to none. In true Lock Harford style, she infiltrates this Mans World with impressive success. Authors note: this book has been EDITED AND UPDATED IN 2016. Both Part One and Part Two are now re-combined as a single book in Starbirth Assignment SHIFTER, and Part Two as a separate book will be withdrawn in December 2016. It is being made available until then so that readers who have bought the first part and want to finish the story can do so.
