

Treehab: Tales from My Natural, Wild Life (Living Out: Gay and Lesbian Autobiog)

In these moving, often surprising essays, award-winning author and comedian Bob Smith writes about facing life with ALS, his rich, funny experience of fatherhood before and after his diagnosis, and about his enduring relationship with nature, which inspires him to fight for his survival and for the future of his two children. Aiming his potent, unflinching wit at such public concerns as global warming and environmental destruction, he also articulates how the wild world is a visual and vocal echo that were still alive.
