

Guide to Britains Working Past

A fascinating photographic chronicle of Britains industrial heritage. Britains landscape is rich with buildings and relics of the working lives of earlier generations. Organized by region, with inset maps and rich color photographs, Guide to Britains Working Past provides visitors with excellent information on all the significant sites of Britains industrial heritage, including travel, cost of admission, and hours of access. Among the sites documented here are industrial, railway, and canal museums; factories and mills; coal mines, pottery factories, engines and engine houses; windmills and watermills; foundries and forges; canal locks and lifts; and unique curiosities such as the stone tramway at Haytor on Dartmoor or the Lace Museum in Nottingham. With features on major regional specialties including the tin mines and steam engines of Cornwall, the windmills of Norfolk and the Fens, and the North Wales slate quarries, Guide to Britains Working Past pays tribute to Britains long and fascinating history of technological development.
