

## Ultimate Cake

You wonder how much information can reasonably be put into a slim little volume like this (and confidently entitled Ultimate Cake), but in fact, Barbara Mahers book does an estimable job of getting the reader acquainted with a wide variety of information--everything from good kitchen tools to have to chocolate-decoration techniques to basic, enriching, and decorative ingredients. Part of the Dorling-Kindersley Living series, Ultimate Cake does a fine job of providing a wide overview of many different types of cakes, from basic yellow cakes to pound cakes to regional specialties like genoise, tortes made with nut flours, and more. After the first third of the book is devoted to technique, ingredients, and tools, the rest has yumilicious cake recipes ranging from the simple (Pound Cake) to the exotic (Piskota with Walnuts) to the just-plain-delicious (Hazelnut Macaroon Cake, Rum and Citrus Torte, Swiss Black Cherry Cake, Poppyseed and Chocolate Torte, Apricot and Pecan Tea Loaf, and Nectarine Pavlova, to name just a few). As with all D-K books, the photography is a big part of the equation. Dave Kings sumptuous, richly colored photographs go a long way towards supporting Mahers concise and clear text. Highly recommended as a fine, basic cake cookbook.
