

This is a Confusing Life

Mercedes was a Trilogy passing through this world. Born Roger Clifton Mears IV in 1980, transitioning to Spencer Love, as an eighteen year old gay male, performing in drag, until embracing Mercedes Love, the girl and the woman she was meant to be. In the sixth grade she desperately tried to fit pieces of a puzzle together to understand why she was so different. She wrote her first memoir, journal bound by a clasp titled, This is a Confusing Life. This Memoir honors her as one who never made a choice to be the person she was. Her life was difficult and yet her spirit, laughter and most of all LOVE touched so many as she struggled to survive. My story wont ever have a chance to be told. Ive lived it, but, people wouldnt believe what Ive been through in my life.
