

Wildflowers of the Eastern Sierra: and Adjoining Mojave Desert and Great Basin

A guide to the native and naturalized wildflower species and showy shrubs of the eastern edge of the Sierra Nevada, including parts of the Mojave Desert and Great Basin. The species are organized by elevation zone, flower color and petal number. Each of the 376 species accounts features a color header bar, close-up and habitat photographs, a full plant description, name origins, habitat, viewing locations and blooming season. Includes index of common and scientific names, glossary, and bibliography.
